Seal Hunting

Seal hunting is the most important thing for me. That's because my father used to take me along when he was hunting seals. I like seal hunting a lot. I think that it is very nice and relaxing to be in the silent and beautiful nature. It is always very exciting if my father catches some seals. And when the dogs bark, I make them calm again because when the seal hears them barking, it will dive down into the sea again. It is my hope that our land, Greenland, will always have sea ice in winter time, forever.

Best Greetings from
